

Parents and guardians;

You are receiving this letter because your child is taking an online course to receive high school credit through Edgenuity. Students have the opportunity to take a course that may not have fit into their schedule, was not offered face-to-face, or to make up credit. **As you know, students must earn certain credits to be eligible to graduate.**

Grades are available through [Edgenuity.com](https://www.edgenuity.com). Your child has a unique username and password and you have access to their grades through that login. I am including their progress report, as students will not have a grade on their report card. You will be able to monitor your student's progress through the online system as well. Their grades will not count against UIL requirements. The student's **actual** grade, will be their final grade, which will go on their transcript.

Each student is different. Because of this, KECHS is tailoring this program to meet all students' needs. KECHS is supporting the students for a successful semester, and overall year. All students are able to work at their own pace. Students have a teacher of record they may go ask for assistance, tutorials, and/or guidance.

Students will only have 5 retakes per assignment. This is a new policy to encourage students to try their best on their first attempt. After their 5 retakes, the highest score will be taken for that assignment, and the next assignment will be unlocked by their teacher.

Close Captions are available and encouraged for all students to use. This allows students to watch videos, read the subtitles, and take notes. Student notes are allowed for all tests. Our efforts are intended to support students for successful completion of the course.

Sincerely,

Ms. Brooke Hickey
